**Client/Owner** ► City Client **Yr.** ► --

**Design Cost** ► -- **Contract Cost** ► --

**Description of Work:**

CSE has been working on various projects with the City. CSE's work with the City included a General Structural Consultants Roster Contract and an "Emergency First Response Contract".

Some of the projects associated with these contracts included:

- Island Sheds included the design of small buildings to be built in the Islands used for various recreational tasks. These buildings are small, but require a great amount of details to comply with the regulations on the Island.
- A GTA Arena required a structural review of the Arena Roof and subsequent design of the reinforcing of the roof and repairs.
- A GTA Stable work included the structural review of 100 year old wood trusses and the subsequent structural reinforcing of the Truss Roof Members.
- Another GTA Arena include the structural review of the existing roof for four (4) rinks.
